

Supporting our Panthers since 1980

Our Vision:

Through equity, collaborative teamwork, and fiscal responsibility, the Parkwood Elementary PTA joins the school in inspiring and preparing all students to reach their highest potential to live empowered, successful and compassionate lives. We achieve these goals by advocating for amply funded public education, modeling deliberate and inclusive compassion, and supporting Parkwood School's core values of Academic Excellence, Community, Collaboration, and Respect for Human Differences.

Our Mission:

Build a community at Parkwood between our teachers, parents, and students by respecting our diverse student body and creating and contributing to programs that enhance our students' learning experience.
